

Payment card Blocking

With Paytia's card blocking service businesses can set account level rules that control card acceptance by brand and type

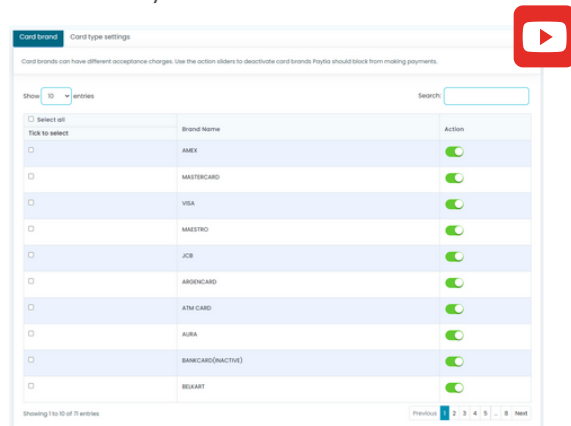

Why Choose Us

Paytia is a one-stop-shop secure payment capture service for card payments. Use Paytia to access easy to use off the shelf payment capture services from a single platform.

Manage card features

Manage card gives business users access to turn on card acceptance by brand i.e. Visa, Mastercard and Type i.e. Credit vs Debit. Using card BIN data Paytia enforces the rules you create.

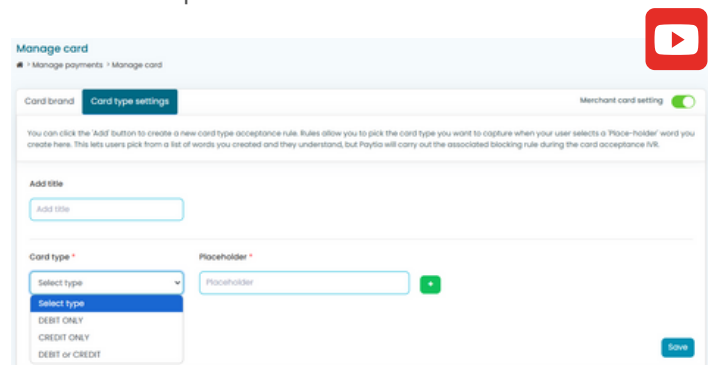

Simple controls

Using a simple slider administrators can control which card brands they want to accept payment with.

Bespoke rules

Administrators are able to create their own Dropdown field for the Paytia Agent Capture Assist Virtual terminal with custom drop down choices mapped to card types accepted.
